

Sitka

Navigating a New Course: Using the New Course Reserves Module

Course Reserves Documentation:

http://docs.libraries.coop/sitka/course_reserves.html

(Documentation on the old course reserves will be removed in the future.)

Current Course Reserves Bugs and Wishlists:

<https://bugs.launchpad.net/evergreen/+bugs?field.tag=course-materials>

Bugs Highlighted in the Webinar:

- [Course Materials - Library Org Selector Not Sticky](#)
- [Course Materials - Role dropdown menu doesn't dropdown](#)
- [Course Materials - Shelving Location Drop Down Won't Drop Down](#)
- [Course Materials - "Material exists at a different library" message appears for every item added](#)
- [Editing call number for reserve item requires refresh](#)
- [Course Materials - Associate brief record fields disappear](#)
- [Wishlist: course materials users should be able to un-archive old courses](#)
- [Course Materials: Browse for course not working](#)
- [Course search results should display alphabetically](#)
- [Course Materials: Default Search Should be Course Number](#)

Library staff may wish to join the mailing list for the Evergreen Student Success Working Group:

<http://list.evergreen-ils.org/cgi-bin/mailman/listinfo/eg-student-success>

This is a great place to ask general questions about how other Evergreen academic libraries are using features. Questions specific to Sitka or your patrons should be directed to Co-op Support.

The [Evergreen Student Success Working Group](#) has been dormant recently but generally meets quarterly throughout the year to discuss Evergreen in relation to meeting the needs of students.

Course Reserves [Videos](#) Coming Soon!
